MARQ2 BICYCLING COMMUNITY ADVISORY—9/02/08 MARQUETTE & 2ND AVENUE SOUTH TRANSIT PROJECT (MARQ2)

BICYCLE ROUTE CHANGES

Minneapolis
City of Lakes

Reconstruction of Marquette and 2nd Avenue has begun. The reconstruction will continue until late 2009 and will result in considerable disruption to the travelling public, particularly downtown commuters and bicyclists. There will be frequent parking restrictions, lane shifts, lane closures and periods when streets will be completely closed except for direct access to buildings.

When bike lane closures are necessary, 'Bike Lane Closed Ahead' and 'Bike Lane Closed' signs will be posted. Do not use closed lanes or bike in areas that have been closed to traffic.

Please use extra caution and abide by all construction signs when bicycling near the reconstruction area.

We encourage you to consider using alternate routes. A map of the downtown area showing bike lanes is shown below. Bicyclists, of course, may continue to use all streets that are open to general traffic.
